Phifertex mesh. Sunbrella-laminated vinyl back panel. Adhesive Snap installation.

## Material Options

Material Type	Description	Additional Cost
<a href="#">Standard High-Quality Mesh Fabric</a>	<a href="#">Phifertex</a> mesh in various colors. This material is durable but flexible. It gets softer and the color fades after about 5 years in the elements, but it can last more than 15 years with careful maintenance.	Included in base price
<a href="#">Premium Extreme-Duty Mesh</a>	Wide weave thick mesh available in white or black. Holds a consistent shape and looks beautiful for more than 15 years with basic maintenance.	+\$100 per bag
Heavy-Duty Back Panel	The back panel is made from: <ul style="list-style-type: none"> <li>- Heavy vinyl fabric.</li> <li>- Sunbrella-laminated vinyl fabric for a softer look and feel.</li> <li>- Mesh fabric to match the sheet bag.</li> </ul>	Included in base price
Thread, Grommets	Long-lasting 138 gauge Tenara thread that outlasts the fabric. Brand-name nickel-plated spur grommets that don't pull out or spin.	Included in base price
Closure	Fiberglass tube in sleeve, with shock cord pulling tight to your desired width. *No tube is needed for bags less than 12" wide.	Included in base price

Premium extreme-duty mesh. Mesh back panel. Batten, through-bolt installation.

## Installation Methods

Method	Description	Additional Cost	Durability	Removability
<a href="#">Batten</a>	Battens in sleeve at top/bottom with through-bolts or screws	Included in base price	Most simple and heavy-duty	Permanently fastened to hull
<a href="#">Adhesive Snaps</a>	Snap fasteners with adhesive backing. No fasteners in the boat.	+\$100 per bag	Less sturdy, but avoids fasteners. Snaps need lubrication and fresh-water rinse every year.	Easily removable for stowing bags inside. Frequent removal may affect the adhesive snaps.
<a href="#">PVC Awning Track</a>	PVC awning track screwed into cockpit (~10 small screws per sheet bag).	+\$225 per bag	Rugged, simple, attractive. PVC track lasts 15+ years.	Most easily removed for frequently stowing bags inside.
<a href="#">G-10 + Dyneema Pad-Eye</a>	Dyneema pad-eyes glued to cockpit, lashed to sheet bags at corners. 4 pad-eyes per sheet bag. No fasteners in the boat	+\$625 per bag	Simple and rugged, lasts 10+ years.	Permanently glued to the hull. Sheet bags can be un-lashed with some effort.

Premium extreme-duty mesh. Batten installation & custom fit to metal frame.

## Pricing Examples

\*Prices include everything from measuring at the boat, to final installation on the boat within SF Bay service area.

\*If you want to measure and install yourself, we can build the items ready for you to install.
